Marking the science tests

Following the recommendations of the Expert Group on Assessment the Department of Children, Schools and Families decided to discontinue national curriculum tests in science at key stage 2 and to monitor national standards in science through externally-marked national sampling. The outcomes will be used to monitor national standards in key stage 2 science.

This booklet contains the mark schemes for tests A and B. External markers under contract to QCDA will mark the test papers using the mark schemes in this booklet.

General guidance

The structure of the mark schemes

The marking information for each question is set out in the form of tables. The ‘question’ column on the left-hand side of each table provides a quick reference to the question number and question part. The ‘mark’ column gives the number of marks available for each question part.

The ‘requirements’ column may include three types of information:

- a general statement describing what is required for the award of marks
- examples of specific creditworthy responses demonstrating correct science
- examples of creditworthy responses that are beyond the key stage 2 programme of study.

The ‘allowable answers’ column gives examples of allowable creditworthy responses, showing correct science which may not be as clearly expressed.

The ‘additional guidance’ column may include different types of information:

- specific responses which are not creditworthy either because information from the question has been rephrased, or because incorrect scientific knowledge is implied
- answers which are insufficient in themselves to gain credit, but are not incorrect science, and would therefore not lose credit if combined with a correct response.

Applying the mark schemes

The mark schemes give scientifically correct answers to each question as well as providing guidance on, and examples of, other answers which are allowable. In cases of alternative wording or where an answer is drawn rather than written, external markers will exercise their professional judgement.

In order to ensure consistency of marking, the most frequent queries are listed below, along with the action the marker will take.

What if...?	Marking procedure
The pupil gives two or more responses to a particular question part.	a) If a pupil qualifies a scientifically correct answer with a scientifically incorrect statement, no mark will be awarded for that question part. b) If a pupil qualifies a scientifically correct answer with an incorrect statement which is not relevant to the context of the question, the latter response is regarded as ‘neutral’ and the mark will be awarded.
The pupil has not used ticks to indicate the correct response in a multiple-choice question.	Any unambiguous positive indication of the correct answer will be accepted. Ticks take precedence over any other form of response. Therefore, when ticks and any other sort of response are given together, the boxes with ticks will be assumed to be the pupil’s response. If the correct boxes are left blank, no marks will be awarded.
The pupil ticks more than the required number of boxes.	One mark will be deducted for each incorrect answer. Negative marks will not be awarded.
In a planning question, no answer is given in the expected place, but the correct answer is given in the drafting box.	Where a pupil has shown understanding of the question, the mark(s) will be given.
The pupil misspells a word.	a) If it is clear that the pupil has made a simple error, eg ‘tow’ for ‘two’ or ‘son’ for ‘sun’, then the incorrect spelling will be accepted and the mark awarded. b) If a pupil misspells a word copied from the text of the question or from a selection given, and the new word does not have any inappropriate meaning, the incorrect spelling will be accepted and the mark awarded. c) If specific scientific vocabulary is required in the answer, a creditworthy misspelling must be a phonetic equivalent of the required word, with the major syllables of the correct word represented in the answer.

Recording marks awarded

In the margin, alongside each question part, there is a mark box for each question part. Depending on the type of response made to each part of each question by the pupil, the external marker will put one of the following into each box:

- 1 for an acceptable/allowable response
- 0 for an incorrect response
- if no response is made.

The number of marks gained on each double page will be written in the box at the bottom of the right-hand page. The total number of marks gained on each paper will be recorded on the front of the test paper.

Each paper has 40 marks available.

The 2010 key stage 2 science tests and mark schemes were developed by the National Foundation for Educational Research (NFER) on behalf of QCDA.

[Blank page]

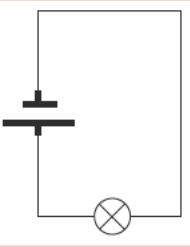

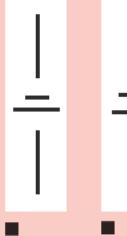

Test A question 1: Drinking water

Question	Mark	Requirements	Allowable answers	Additional guidance
1a	1m	Award ONE mark for: ■ sieve.	ONE mark may be awarded for: ■ (tea) strainer ■ (fishing) net ■ colander.	Do not give credit for an insufficient response: ■ filter.
1b	1m	Award ONE mark for correctly classifying both statements: <i>because the animals are adapted to live in the stream so the animals do not get eaten by predators</i>	True..... False.....	
1c	1m	Award ONE mark for explaining that bits of (insoluble) mud in the water will not fit through the filter but the water flows through it: ■ only the water goes through the paper and any mud is left behind ■ insoluble bits (of soil) are left on the filter paper, the rest goes through the filter collects the big particles and lets the smaller ones through.		ONE mark may be awarded for a response which describes what happens to either the mud or the water: ■ the mud is trapped in the filter ■ the water goes through (the holes in the filter) ■ the mud is too big for the holes.
1d	1m	Award ONE mark for indicating that the micro-organisms could make people ill: ■ they could get sick/ill ■ they could catch a disease.		Do not give credit for an insufficient response: that does not clearly imply the mud remains in the filter or the water goes through: ■ it filters it ■ there are holes in the filter ■ it filters the mud from the water [given].
		Award ONE mark for indicating the funnel separates the mixture: ■ the mud stays in the funnel.		Do not give credit for an insufficient response: indicating the funnel separates the mixture: ■ the mud stays in the funnel.
		Award ONE mark for: ■ they could be harmed/food) poisoned ■ they could catch germs/viruses/bacteria/bugs.		Do not give credit for an insufficient response: that does not make the link to infecting people: ■ they might/would die ■ micro-organisms are dangerous ■ there are germs/bacteria in the water
		Award ONE mark for indicating that the micro-organisms could make people ill: ■ they could get sick/ill ■ they could catch a disease.		Do not give credit for an insufficient response: that states people may develop an inappropriate medical condition: ■ they will get cancer.

Test A question 1: Drinking water (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
1e 1/2c	1m	Award ONE mark for: ■ <input type="checkbox"/> Hang it over a fire in a pot. <input checked="" type="checkbox"/> <input type="checkbox"/>		
	1f 3/2d	Award ONE mark for: ■ <input type="checkbox"/> <input type="checkbox"/> 100°C <input checked="" type="checkbox"/>	<input type="checkbox"/>	

Test A question 2: Circuit

Question	Mark	Requirements	Allowable answers	Additional guidance
2a	1m 4/1c	Award ONE mark for correctly drawing the symbol for a cell in the circuit:	<ul style="list-style-type: none"> ■  	<p>Do not give credit for a response incorrectly connecting the cell to the circuit [with gaps between the cell and wires of more than 2 mm] or inaccurately drawing the cell or drawing more than one cell:</p> <ul style="list-style-type: none"> ■  ■  ■  ■  ■ 
2b	1m 4/1a	Award ONE mark for:	<ul style="list-style-type: none"> ■ switch. 	<p>Do not give credit for an insufficient response:</p> <ul style="list-style-type: none"> ■ the button you press on and off ■ crocodile clips ■ a paperclip between two pins.
2c	1m 1/2c,d	Award ONE mark for:	<ul style="list-style-type: none"> ■ <input type="checkbox"/> so she does not measure light from other sources <input checked="" type="checkbox"/> ■ <input type="checkbox"/> 	

Test A question 2: Circuit (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance																				
2d	2m	Award TWO marks for correctly completing all four rows of the table as shown: 4/1b or 1m	<table border="1"><thead><tr><th>Object used</th><th>will be dimmer.</th><th>will not change.</th><th>will be brighter.</th></tr></thead><tbody><tr><td>copper wire</td><td>✓</td><td></td><td></td></tr><tr><td>a motor</td><td>✓</td><td></td><td></td></tr><tr><td>another cell</td><td></td><td></td><td>✓</td></tr><tr><td>another bulb</td><td>✓</td><td></td><td></td></tr></tbody></table> <p>If you are unable to award two marks, award ONE mark for any three rows completed correctly.</p>	Object used	will be dimmer.	will not change.	will be brighter.	copper wire	✓			a motor	✓			another cell			✓	another bulb	✓			
Object used	will be dimmer.	will not change.	will be brighter.																					
copper wire	✓																							
a motor	✓																							
another cell			✓																					
another bulb	✓																							

Test A question 3: Heating water

Question	Mark	Requirements	Allowable answers	Additional guidance
3a 1/2d	1m	Award ONE mark for a response indicating the volume of water is being changed: <ul style="list-style-type: none"> ■ the amount/volume of water ■ how much water there is in the saucepan. 	ONE mark may be awarded for: <ul style="list-style-type: none"> ■ height/depth/level of water ■ length of water ■ each time they did the test they added more water to the pan. 	Do not give credit for a response that includes incorrect science where either the dependent or the control variables are given: <ul style="list-style-type: none"> ■ time/minutes ■ method used to heat the water.
3b 1/2c	1m	Award ONE mark for an appropriate piece of equipment for measuring temperature: <ul style="list-style-type: none"> ■ thermometer ■ temperature sensor. 	ONE mark may be awarded for: <ul style="list-style-type: none"> ■ heat sensor. 	Do not give credit for an insufficient response: <ul style="list-style-type: none"> ■ sensor.
3c 1/2e 3/1b	1m	Award ONE mark for an indication that it will stop her getting burnt or that it will not conduct heat: <ul style="list-style-type: none"> ■ it stops her burning her fingers ■ wood is not a (thermal) conductor ■ heat will not go through the wood ■ wood is a (thermal) insulator. 	ONE mark may be awarded for: <ul style="list-style-type: none"> ■ it will not get hot. 	Do not give credit for an incorrect science: <ul style="list-style-type: none"> ■ wood does not burn.
				Do not give credit for an insufficient response: <ul style="list-style-type: none"> ■ if it was plastic it would melt.

Test A question 3: Heating water (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance								
3d	1m 1/2m	Award ONE mark for an indication that the starting temperature of the water was not the same in all of the saucepans:	<ul style="list-style-type: none"> ■ the temperature of the water in saucepan A started higher than the other saucepans ■ the water in saucepan A was too hot at the beginning ■ they did not all start at the same temperature. 	<p>Do not give credit for a response that includes incorrect science:</p> <ul style="list-style-type: none"> ■ the pans did not have the same heat ■ they were heated for different times ■ she used different amounts of water. 								
3e	1m 1/2j,h	Award ONE mark for both times correct:	<table border="1" data-bbox="992 1500 1167 1763"> <thead> <tr> <th>Saucepan</th> <th>Time to reach 50°C (seconds)</th> </tr> </thead> <tbody> <tr> <td>A</td> <td>42</td> </tr> <tr> <td>B</td> <td>59</td> </tr> <tr> <td>C</td> <td>66</td> </tr> </tbody> </table>	Saucepan	Time to reach 50°C (seconds)	A	42	B	59	C	66	<p>Do not give credit for an insufficient response which does not refer to temperature or use the unit °C:</p> <ul style="list-style-type: none"> ■ A was more than pans B and C ■ A is at 20 and B and C are at 10.
Saucepan	Time to reach 50°C (seconds)											
A	42											
B	59											
C	66											

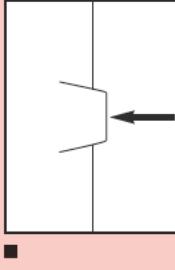

Test A question 4: River wildlife

Question	Mark	Requirements	Allowable answers	Additional guidance
4a i	1m 2/4b	Award ONE mark for a feature of the duck and the swan that is similar: <ul style="list-style-type: none"> ■ feathers ■ beak ■ body shape ■ wings. 	ONE mark may be awarded for a response identifying similar behaviours: <ul style="list-style-type: none"> ■ the duck and swan can fly. ONE mark may be awarded for: <ul style="list-style-type: none"> ■ they are both birds. 	Do not give credit for an insufficient response giving a feature that is common to all three animals: <ul style="list-style-type: none"> ■ webbed feet ■ legs/eyes/head ■ they can swim.
4a ii	1m 2/4b	Award ONE mark for a feature of the duck and the swan that is not similar: <ul style="list-style-type: none"> ■ the colour of the feathers ■ the length of the neck ■ the size of the bird. ■ has it got a long neck? ■ white feathers. 	ONE mark may be awarded for: <ul style="list-style-type: none"> ■ the swan is white ■ has it got a long neck? ■ white feathers. ONE mark may be awarded for: <ul style="list-style-type: none"> ■ size ■ colour ■ neck. 	Do not give credit for an insufficient response repeating a feature already given in part 4ai which puts the duck and the swan in the same group. <ul style="list-style-type: none"> ■ they both have long necks and frogs do not [part 4ai] long necks [part 4aii].
4b	1m 2/4c	Award ONE mark for: <ul style="list-style-type: none"> ■ <input type="checkbox"/> to help identify <input checked="" type="checkbox"/> different ducks ■ <input type="checkbox"/> 		

Test A question 4: River wildlife (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
4c 2/4a	2m or 1m	Award TWO marks for both : ■ coot and moorhen [given in either order]. If you are unable to award two marks, ONE mark may be awarded for any one bird correctly identified.		
4d 2/4a	1m	Award ONE mark for an indication of the colours of both the wings and the beak: ■ The wings are (mostly) grey The beak is yellow.		

Test A question 5: Foil boats

Question	Mark	Requirements	Allowable answers	Additional guidance
5a 4/2e	1m	Award ONE mark for an arrow pointing upwards anywhere on the diagram: ■ 		Do not give credit for a response that includes incorrect science where the arrow is pointing downwards. Do not give credit for a response that includes incorrect science where the arrow is pointing horizontally.
5b 1/2/ 4/2d	1m	Award ONE mark for: ■ <input type="checkbox"/> has the largest base. <input checked="" type="checkbox"/>		
5c 4/2b 1/2j	2m	Award TWO marks for correctly classifying all three statements: Compared with the other boats... boat 3 was more waterproof. <input type="checkbox"/> False..... or there was a bigger force from the water stopping boat 3 sinking. <input type="checkbox"/> True..... there was less gravity pulling down on boat 3. <input type="checkbox"/> False.....		
	1m	If you are unable to award two marks, award ONE mark for any two statements correctly classified.		

Test A question 6: Model sheep

Question	Mark	Requirements	Allowable answers	Additional guidance
6a 3/2a 3/3b	1m	Award ONE mark for a response stating the solid dissolved: <input checked="" type="checkbox"/> it has dissolved.		Do not give credit for an insufficient response: <input checked="" type="checkbox"/> it has disappeared <input checked="" type="checkbox"/> it is transparent.
6b 3/1a	1m	Award ONE mark for: <input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> absorbent <input type="checkbox"/>		
6c 1/2/ 1/1a	1m	Award ONE mark for an indication that all the liquid has evaporated or that there is no liquid in the pot: <input checked="" type="checkbox"/> the water has all evaporated <input checked="" type="checkbox"/> there is no liquid in the pot <input checked="" type="checkbox"/> all the special liquid has been absorbed into the cardboard sheep.		Do not give credit for an insufficient response Stating evaporation/absorption is occurring without indicating the liquid has been used up : <input checked="" type="checkbox"/> the liquid evaporated/soaked into the sheep.
6d 3/2a	1m	Award ONE mark for: <input type="checkbox"/> <input checked="" type="checkbox"/> salt		

Test A question 7: Watering plants

Question	Mark	Requirements	Allowable answers	Additional guidance							
7a 2/3a	2m	<p>Award TWO marks for any two correct responses:</p> <ul style="list-style-type: none"> ■ (sun)light ■ air ■ nutrients/minerals. <p>or</p> <ul style="list-style-type: none"> ❖ Give credit for a correct response that goes beyond the key stage 2 programme of study if air is not already given: ■ oxygen/O₂ ■ carbon dioxide/CO₂. <p>1m</p> <p>If you are unable to award two marks, award ONE mark for any one correct response.</p>	<p>Marks may be awarded for:</p> <ul style="list-style-type: none"> ■ warmth/heat ■ fertilizer/named type of commercial plant growth supplement [if nutrients or minerals are not also given]. <p>Do not give credit for an insufficient response:</p> <ul style="list-style-type: none"> ■ Sun ■ water [given] ■ (plant) food ■ nutrition [this is a life process, not what is taken in]. <p>Do not give credit for a second response that is a repetition or restatement of the first.</p>								
7b 1/2c,d	2m	<p>Award TWO marks for all four questions correctly answered:</p> <table border="0" style="width: 100%;"> <tr> <td style="width: 50%; vertical-align: top;"> <p>Should David use the same type of soil in each pot?</p> </td> <td style="width: 50%; vertical-align: top;"> <p>yes <input checked="" type="checkbox"/> <input type="checkbox"/></p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>Should David put the plant pots in the same place?</p> </td> <td style="vertical-align: top;"> <p>yes <input checked="" type="checkbox"/> <input type="checkbox"/></p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>Should David put the same amount of water in each pot?</p> </td> <td style="vertical-align: top;"> <p>no <input checked="" type="checkbox"/> <input type="checkbox"/></p> </td> </tr> <tr> <td style="vertical-align: top;"> <p>How many plants should David use?</p> </td> <td style="vertical-align: top;"> <p>5 plants <input checked="" type="checkbox"/> <input type="checkbox"/></p> </td> </tr> </table> <p>or</p> <p>1m</p> <p>If you are unable to award two marks, award ONE mark for any two or three questions correctly answered.</p>	<p>Should David use the same type of soil in each pot?</p>	<p>yes <input checked="" type="checkbox"/> <input type="checkbox"/></p>	<p>Should David put the plant pots in the same place?</p>	<p>yes <input checked="" type="checkbox"/> <input type="checkbox"/></p>	<p>Should David put the same amount of water in each pot?</p>	<p>no <input checked="" type="checkbox"/> <input type="checkbox"/></p>	<p>How many plants should David use?</p>	<p>5 plants <input checked="" type="checkbox"/> <input type="checkbox"/></p>	
<p>Should David use the same type of soil in each pot?</p>	<p>yes <input checked="" type="checkbox"/> <input type="checkbox"/></p>										
<p>Should David put the plant pots in the same place?</p>	<p>yes <input checked="" type="checkbox"/> <input type="checkbox"/></p>										
<p>Should David put the same amount of water in each pot?</p>	<p>no <input checked="" type="checkbox"/> <input type="checkbox"/></p>										
<p>How many plants should David use?</p>	<p>5 plants <input checked="" type="checkbox"/> <input type="checkbox"/></p>										

Test A question 7. Watering plants (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
7c 2/3c	1m	Award ONE mark for both : ■ root and ■ stem/stalk [given in either order].	Marks may be awarded for 'trunk' and/or 'branches' but not in conjunction with 'stem/stalk'.	
7d 3/2e	2m	Award TWO marks for all four letters in the correct place: ■	<p>If you are unable to award two marks, award ONE mark for any two or three letters in the correct place.</p>	<p>ONE mark may be awarded for three letters in the correct order but incorrectly placed on the diagram [the only two possible correct responses indicated by the shaded boxes]:</p> <ul style="list-style-type: none"> ■
		or		

Test A question 8: Ice

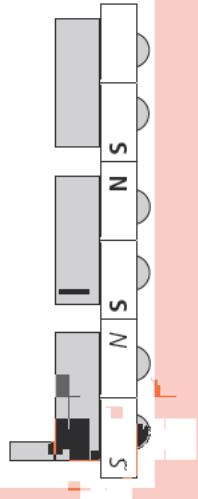

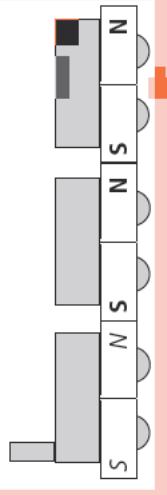

Question	Mark	Requirements	Allowable answers	Additional guidance																						
8a 3/2c	1m	Award ONE mark for a response identifying temperature is a measure of how hot or cold something is: ■ how hot/cold the air/it is.	ONE mark may be awarded for: ■ warmth ■ (the amount of) heat.	Do not give credit for an insufficient response: ■ air/gas ■ degrees Celsius/°C.																						
8b i 3/2c,j	1m	Award ONE mark for all five days correctly completed:																								
			<table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th rowspan="2">Temperature (°C)</th> <th colspan="5">Day</th> </tr> <tr> <th>Mon</th> <th>Tues</th> <th>Wed</th> <th>Thurs</th> <th>Fri</th> </tr> </thead> <tbody> <tr> <td>3</td> <td>-2</td> <td>-1</td> <td>-1</td> <td>6</td> </tr> <tr> <td>Could Tom find ice on the puddle? Yes or no?</td> <td>No</td> <td>Yes</td> <td>Yes</td> <td>Yes</td> <td>No</td> </tr> </tbody> </table>	Temperature (°C)	Day					Mon	Tues	Wed	Thurs	Fri	3	-2	-1	-1	6	Could Tom find ice on the puddle? Yes or no?	No	Yes	Yes	Yes	No	
Temperature (°C)	Day																									
	Mon	Tues	Wed	Thurs	Fri																					
3	-2	-1	-1	6																						
Could Tom find ice on the puddle? Yes or no?	No	Yes	Yes	Yes	No																					

Test A question 8: Ice (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
8b ii	1m 1/2l	Award ONE mark for a response that recognises the temperature is below 0°C, the freezing point of water: <ul style="list-style-type: none"> ■ because the numbers are below 0°C ■ water freezes at 0°C. 	ONE mark may be awarded for a response implying the freezing point is at 0°C without referring to ‘°C’ or ‘temperature’: <ul style="list-style-type: none"> ■ because it is less than zero. 	Do not give credit for a response that includes incorrect science giving an inaccurate freezing point of water: <ul style="list-style-type: none"> ■ the temperature is below –1°C, the freezing point of water.
				Do not give credit for an insufficient response which states the temperature is in negative numbers: <ul style="list-style-type: none"> ■ when everything is in the minuses, it freezes ■ because they are negative numbers.
				Do not give credit for an insufficient response repeating information from the table without interpretation: <ul style="list-style-type: none"> ■ because it was –2°C and –1°C.
				Do not give credit for an insufficient response identifying the cold(est) days have ice: <ul style="list-style-type: none"> ■ because these were the coldest days ■ it was so cold it froze ■ the temperature was too low.

[Blank page]

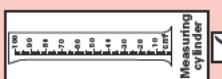

Test B question 1: Magnets

Question	Mark	Requirements	Allowable answers	Additional guidance
1a 4/2a	1m	Award ONE mark for an unambiguous indication of:		ONE mark may be awarded for: <ul style="list-style-type: none"> ■ the magnetic force pushes it away ■ Nisha put like poles together ■ it is repelling.
1b 4/2a,d	1m	Award ONE mark for an indication that the magnets repel each other or that the magnets have like poles facing each other:		ONE mark may be awarded where an insufficient or no response is given but the left-hand pole of Nisha's magnet has been correctly labelled 'N'. Do not give credit for an insufficient response implying the whole magnet is one pole: <ul style="list-style-type: none"> ■ they are both North magnets so they will repel.

Test B question 2: Duckweed

Question	Mark	Requirements	Allowable answers	Additional guidance		
<p>2a 1m 2/3c</p> <p>Award ONE mark for an indication that the root takes in/soaks up minerals and/or water:</p> <ul style="list-style-type: none"> ■ they take up minerals ■ the root absorbs water. <p>ONE mark may be awarded for:</p> <ul style="list-style-type: none"> ■ the root absorbs/gets nutrients ■ it drains/takes/draws nutrients from the pond ■ the root collects/gathers water ■ it carries water to the leaves [as there is no stem] ■ it helps with dispersal [duckweed roots are sticky to facilitate transfer by the legs of water birds to new habitats]. 						

Test B question 2: Duckweed (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance								
2b 1/2c	1m	Award ONE mark for:	<p><input type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/></p> 									
2c 1/2c	1m	Award ONE mark for both rows of the table completed correctly giving numbers within the ranges shown:	<table border="1" style="margin-left: auto; margin-right: auto;"> <thead> <tr> <th style="text-align: left;">Amount of sunlight (hours per day)</th> <th style="text-align: left;">Number of duckweed plants at the end of the week</th> </tr> </thead> <tbody> <tr> <td>0</td> <td>0 – 3 inclusive</td> </tr> <tr> <td>6</td> <td>4</td> </tr> <tr> <td>10</td> <td>greater than 4</td> </tr> </tbody> </table>	Amount of sunlight (hours per day)	Number of duckweed plants at the end of the week	0	0 – 3 inclusive	6	4	10	greater than 4	
Amount of sunlight (hours per day)	Number of duckweed plants at the end of the week											
0	0 – 3 inclusive											
6	4											
10	greater than 4											
2d 1/1b	1m	Award ONE mark for:	<ul style="list-style-type: none"> ■ so she can collect <input checked="" type="checkbox"/> evidence <input type="checkbox"/> 									

Test B question 3: Rocket

Question	Mark	Requirements	Allowable answers	Additional guidance
3a 3/2f 3/1e	1m	Award ONE mark for both sentences correctly completed:	<p>(i) <i>The bubbles show that a solid liquid is produced.</i></p> <p>(ii) <i>This change is reversible.</i></p>	<p>Do not give credit for an insufficient response where only one sentence is correct.</p>
3b 1/2e	1m	Award ONE mark for:	<p><input type="checkbox"/> He is not sure where the rocket will go.</p> <p><input checked="" type="checkbox"/> the rocket takes to go up.</p>	
3c 1/2i/j	1m	Award ONE mark for a general comparison describing the relationship between the amount of tablet and the time taken for the rocket to go up:	<p>the smaller the (amount of) tablet, the longer the rocket takes to go up</p> <p>the more tablet there is, the less time the rocket takes to go up.</p>	<p>Do not give credit for a response that changes a variable:</p> <ul style="list-style-type: none"> ■ the bigger the tablet, the quicker it produces gas [incorrect science] ■ the smaller the tablet, the less gas made [insufficient].
			<p>Do not give credit for an insufficient response which gives a single comparison of the variables:</p> <ul style="list-style-type: none"> ■ the smallest tablet makes the rocket take the most time ■ the rocket goes faster when the tablet is big. 	

Test B question 3: Rocket (continued)

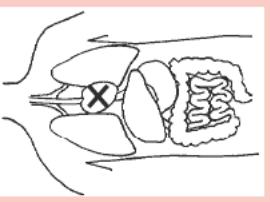

Question	Mark	Requirements	Allowable answers	Additional guidance
3d 1/2 <i>i</i>	1m	Award ONE mark for a response which is greater than 0 and less than 5 seconds.		Do not give credit for a response that includes incorrect science: ■ 0 seconds.
3e 3/2 <i>f</i>	1m	Award ONE mark for: vinegar and <input type="checkbox"/> ■ bicarbonate of soda <input checked="" type="checkbox"/>	<input type="checkbox"/>	

[Blank page]

Test B question 4: Drums

Question	Mark	Requirements	Allowable answers	Additional guidance																
4a	1m 4/2d	Award ONE mark for: ■ a pushing force ■ from the drum skin <input checked="" type="checkbox"/> <input type="checkbox"/>																		
4b	1m 4/3g	Award ONE mark for an indication of the floor or drum stand: ■ the ground ■ the drum's legs.		Do not give credit for an insufficient response: ■ drum ■ Evelyn's feet ■ the air [given] ■ oxygen [constituent of air] ■ her body ■ vibrations ■ drumsticks ■ legs [could mean Evelyn's legs].																
4c	1m 4/3e	Award ONE mark for: ■ vibrations ■ she can feel the floor vibrate.		Do not give credit for an insufficient response: ■ the floor shakes/moves up and down [no indication of speed] ■ the drum sound [repetition of stem].																
4d	1m 4/3f	Award ONE mark for correctly completing all three rows of the table.	<table border="1"> <thead> <tr> <th>How Evelyn plays the drum</th> <th>gets higher.</th> <th>The sound...</th> <th>does not get higher or louder.</th> </tr> </thead> <tbody> <tr> <td>with a tighter drum skin</td> <td><input checked="" type="checkbox"/></td> <td></td> <td></td> </tr> <tr> <td>hit the drum with more force</td> <td></td> <td><input checked="" type="checkbox"/></td> <td></td> </tr> <tr> <td>hit the drum faster with the same force</td> <td></td> <td></td> <td><input checked="" type="checkbox"/></td> </tr> </tbody> </table>	How Evelyn plays the drum	gets higher.	The sound...	does not get higher or louder.	with a tighter drum skin	<input checked="" type="checkbox"/>			hit the drum with more force		<input checked="" type="checkbox"/>		hit the drum faster with the same force			<input checked="" type="checkbox"/>	
How Evelyn plays the drum	gets higher.	The sound...	does not get higher or louder.																	
with a tighter drum skin	<input checked="" type="checkbox"/>																			
hit the drum with more force		<input checked="" type="checkbox"/>																		
hit the drum faster with the same force			<input checked="" type="checkbox"/>																	

Test B question 5: Keeping warm and healthy

Question	Mark	Requirements	Allowable answers	Additional guidance	
5a 2/2c	1m	Award ONE mark for both parts correct: (i) the centre of the cross drawn on the heart:	 AND (ii) heart.		
	5b 2/2d	1m	Award ONE mark for both correct boxes ticked:	<input type="checkbox"/> <input checked="" type="checkbox"/> playing football <input checked="" type="checkbox"/> going for a walk	
	5c BoS 2a 2/2c	1m	Award ONE mark for:	<input type="checkbox"/> <input checked="" type="checkbox"/> beats per minute	

Test B question 5: Keeping warm and healthy (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
5d 1m 1/2g,d		<p>Award ONE mark for an indication that a large sample made Hassan's test reliable or that he used an appropriate control variable that made the test fair:</p> <ul style="list-style-type: none"> ■ he used 6/lots of children (not just one) ■ he took the pulse rates of the same children in the hot and cold ■ he used the same (6) children ■ all the children had been sitting only and not running about ■ he made sure the children were at rest in both places ■ he made sure the children had time to cool down or warm up in each place. 	<p>ONE mark may be awarded for an indication that accuracy was improved:</p> <ul style="list-style-type: none"> ■ he used a timer instead of a clock to measure the exact time. 	<p>Do not give credit for an insufficient response:</p> <ul style="list-style-type: none"> ■ he measured the air temperature in each place [this refers to ensuring the independent variable has been varied rather than to a control variable].
5e 1m 1/2j		<p>Award ONE mark for a conclusion identifying that the pulse rate was higher in the warm place or the converse:</p> <ul style="list-style-type: none"> ■ pulse rate is higher when it is warmer ■ the children had higher pulse rates in the warm classroom than they did in the cold playground ■ a low temperature makes your pulse go down ■ the warmer it is, the more heart beats. 	<p>ONE mark may be awarded for an absolute response:</p> <ul style="list-style-type: none"> ■ they had high/fast pulse rates in the warm/classroom ■ they had low/slow pulse rates in the cold/playground. 	<p>Do not give credit for an insufficient response that does not interpret the results:</p> <ul style="list-style-type: none"> ■ in the warm classroom the numbers are high.

Test B question 6: Moon trip

Question	Mark	Requirements	Allowable answers	Additional guidance
6a 4/2b	1m	Award ONE mark for: ■ weight ■ gravitational pull/atraction.	ONE mark may be awarded for: ■ gravity.	Do not give credit for an insufficient response: ■ downward pull.
6b 4/4a	1m	Award ONE mark for an indication that the Moon is spherical: ■ sphere. ❖ Give credit for a correct response that goes beyond the key stage 2 programme of study: ■ ovoid ■ geoid.	ONE mark may be awarded for: ■ (like a) ball.	Do not give credit for an insufficient response: ■ round ■ circular ■ oval.
6c 4/4d	1m	Award ONE mark for: ■ ■ 28 days <input checked="" type="checkbox"/>	Award ONE mark for: ■ ■	
6d 4/4c	1m	Award ONE mark for an indication that night and day are caused by the spin of the Earth: ■ the Earth/it spins/rotates (on its axis) ■ the Earth/it turns on its axis.	ONE mark may be awarded for: ■ (the Earth moves) on its axis ■ it revolves (about its axis). ONE mark may be awarded for a creditworthy response accompanied by an insufficient response describing the orbit of the Earth around the Sun: ■ the Earth spins as it orbits the Sun ■ the Earth turns on its axis and moves around the Sun.	Do not give credit for an insufficient response: ■ the Earth/it moves around ■ the Earth/it turns ■ the rotation [does not indicate what is rotating] ■ during the day, the Earth faces the Sun, at night the Earth faces away from the Sun/ faces the Moon.

Test B question 6: Moon trip (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
6e 2/1b	1m	Award ONE mark for naming any one of the following life processes: <input type="checkbox"/> reproduction <input type="checkbox"/> nutrition. ❖ Give credit for a correct response that goes beyond the key stage 2 programme of study: <input type="checkbox"/> movement <input type="checkbox"/> respiration <input type="checkbox"/> excretion <input type="checkbox"/> sensitivity.		Do not give credit for an insufficient response: <input type="checkbox"/> growth [given] <input type="checkbox"/> germination <input type="checkbox"/> nutrients <input type="checkbox"/> die.
6f 1/1a 2/1c	1m	Award ONE mark for both correct boxes ticked: <input type="checkbox"/> <input type="checkbox"/> <input checked="" type="checkbox"/> <input checked="" type="checkbox"/> <input type="checkbox"/> There is no rain. <input type="checkbox"/> There is no air.		

Test B question 7: Baby's bottle

Question	Mark	Requirements	Allowable answers	Additional guidance
7a 1/2b,c	1m	Award ONE mark for recognising the need for comparison: ■ to see how quickly the bottle would normally cool down (without being wrapped up) ■ it is a control bottle ■ to see if wrapped is better than unwrapped ■ to see if the milk will stay warmer if it is not wrapped.		Do not give credit for an insufficient response: ■ so it is a fair test ■ to see how quickly it cools.
7b 3/1b	1m	Award ONE mark for: ■ (thermal) insulator.		
7c 1/2d	1m	Award ONE mark for all three correct variables ticked: ■ size of bottle <input checked="" type="checkbox"/> ■ number of layers of material wrapping <input checked="" type="checkbox"/> the bottle <input type="checkbox"/> ■ volume of <input checked="" type="checkbox"/> ■ milk in bottle <input checked="" type="checkbox"/>		
7d 1/2i	1m	Award ONE mark for: ■ <input type="checkbox"/> ■ B <input checked="" type="checkbox"/> ■ <input type="checkbox"/> ■ <input type="checkbox"/>		

Test B question 7: Baby's bottle (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
7e 1/2k,c	1m	Award ONE mark for both: <input checked="" type="checkbox"/> wool <input type="checkbox"/> AND an explanation that indicates the wool was best at stopping heat loss for the bottle (so will also be best for insulating the lolly): <input checked="" type="checkbox"/> the wool was best at keeping the bottle warm <input checked="" type="checkbox"/> it is the best insulator <input checked="" type="checkbox"/> wool will stop the lolly melting for longest as it kept the bottle warm for longest.	ONE mark may be awarded for both: <input checked="" type="checkbox"/> wool <input type="checkbox"/> AND an absolute response: <input checked="" type="checkbox"/> wool is a (good) insulator <input checked="" type="checkbox"/> it kept the bottle of milk warm. ONE mark may be awarded if no box is ticked, but the creditworthy explanation indicates unambiguously that the pupil believes wool was best at preventing the ice lolly from melting for the longest time. Do not give credit for an insufficient response that gives sunlight as a source of warmth: <input checked="" type="checkbox"/> it will block the sunlight from making it hot.	Do not give credit if either 'cotton' or 'paper' is ticked. Do not give credit for a response that includes incorrect science implying cold rather than heat travels: <input checked="" type="checkbox"/> it kept the cold in/stopped the coldness getting through. Do not give credit for an insufficient response: <input checked="" type="checkbox"/> wool is thick.

Test B question 8: Tomatoes

<p>Draft box</p> <p><i>Markers should read the answers to all parts before marking this question. The draft box can be consulted when marking all parts for clarification of any ambiguity in the marked response or when no answer is given. If an answer is correct, ignore contradictory statements written in the draft box. Parts 8a–8d must form a coherent investigation.</i></p>			
<p>Question</p>	<p>Mark</p>	<p>Requirements</p>	<p>Allowable answers</p>
<p>8a</p> <p>1/2a,d</p>	<p>1m</p>	<p>Award ONE mark for an awareness of the independent variable (IV) in an experiment or survey which compares the tomato seeds:</p> <ul style="list-style-type: none"> ■ the brand of tomato seeds ■ the type of tomato. 	<p>Do not give credit for an insufficient response:</p> <ul style="list-style-type: none"> ■ (the) type.
<p>8b</p> <p>1/2c,d</p>	<p>1m</p>	<p>Award ONE mark for any acceptable dependent variable (DV) identified:</p> <ul style="list-style-type: none"> ■ the number of tomatoes/flowers ■ the height of the plant ■ the mass/weight of the plant/crop ■ the size of the tomatoes ■ speed of germination/growth. 	<p>Do not give credit for an insufficient response:</p> <p><i>repeating information given in the question:</i></p> <ul style="list-style-type: none"> ■ the growth of the seed/tomato ■ which seeds grow best. <p>Do not give credit for an insufficient response which does not explicitly describe the attribute of tomatoes to be measured:</p> <ul style="list-style-type: none"> ■ compare the tomatoes ■ time taken.

Test B question 8: Tomatoes (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
8c	1m 1/2d	Award ONE mark for any acceptable control variable (CV): ■ light ■ water ■ temperature ■ soil ■ condition/situation in which the tomatoes are kept ■ time left to grow.	ONE mark may be awarded for: ■ the place ■ number of seeds/plants.	<p>Do not give credit for a CV that is inconsistent with, or repeats a creditworthy IV or DV offered in parts 8a or 8b respectively.</p> <p>Do not give credit for an insufficient response identifying a CV which could also be a DV where there is no correct DV for clarification.</p> <p>If neither an IV nor a DV is offered, the CV may gain credit provided it is consistent with the context of the investigation. An appropriate CV can gain credit where both the IV and DV are insufficient or incorrect.</p> <p>Do not give credit for an insufficient response which suggests everything is controlled:</p> <ul style="list-style-type: none"> ■ everything has to be the same.
8d	2m 1/2h	Award TWO marks for an indication that the left-hand heading of the table is the IV (brand of seed) and the right-hand heading is the DV (as described in part 8b): Left-hand heading (8di) ■ (type of) seed ■ which brand? ■ tomato. or Right-hand heading (8dii) ■ number/mass of tomatoes ■ speed of germination/growth ■ height of the plant (cm) ■ taste scale (1–5).	The table headings must be consistent with any creditworthy IV and DV given. Units do not need to be given.	<p>The table headings can gain credit if they describe an appropriate IV or DV which has been omitted in the rest of the question or where an insufficient or incorrect IV or DV has been given. Insufficient responses in the left-hand or right-hand columns may be clarified from the answers to parts 8a and 8b respectively:</p> <ul style="list-style-type: none"> ■ type [can be clarified if 8a says 'type of seeds']. <p>Do not give credit for an insufficient response which generalises the right-hand column:</p> <ul style="list-style-type: none"> ■ results/findings ■ what happened.
	1m			When applying this mark scheme, please also refer to the General guidance given on pages 1 and 2.

Test B question 9: Separating salt

Question	Mark	Requirements	Allowable answers	Additional guidance
9a 3/3a	1m	Award ONE mark for a response indicating that the salt and pasta are different sizes: <input type="checkbox"/> the salt is smaller than the pasta <input type="checkbox"/> they are not the same size.	ONE mark may be awarded for: <input type="checkbox"/> the salt is small and goes through the sieve but the pasta does not <input type="checkbox"/> the holes in the sieve are small so the salt can go through and the pasta cannot.	Do not give credit for an insufficient response which does not compare the size of the solids: <input type="checkbox"/> the salt is small (and goes through the sieve).
9b i 3/3c	1m	Award ONE mark for a response identifying filtration: <input type="checkbox"/> she should filter it <input type="checkbox"/> use filter paper.	ONE mark may be awarded for: <input type="checkbox"/> filter paper <input type="checkbox"/> put paper in the sieve <input type="checkbox"/> use a finer sieve <input type="checkbox"/> decant it.	Do not give credit for an insufficient response identifying that the size of the material affects the separation without indicating the sizes need to be different: <input type="checkbox"/> size <input type="checkbox"/> the sieve lets small things through.
				Do not give credit for an insufficient response: <input type="checkbox"/> the salt goes through the sieve but the pasta cannot <input type="checkbox"/> they are a different shape <input type="checkbox"/> they are different.
				Do not give credit for a response that includes incorrect science implying evaporation will separate the sand and the salt: <input type="checkbox"/> heat the mixture <input type="checkbox"/> evaporate the water.
				Do not give credit for an insufficient response: <input type="checkbox"/> use a funnel [all material would go through a funnel] <input type="checkbox"/> use a small sieve.

Test B question 9: Separating salt (continued)

Question	Mark	Requirements	Allowable answers	Additional guidance
9b ii	1m 3/3d	Award ONE mark for an indication that the mixture can be separated by evaporating (the water leaving the salt behind): <input type="checkbox"/> by evaporation <input type="checkbox"/> evaporate the water (leaving the salt).	ONE mark may be awarded for a response explaining the mixture should be moved to a warmer place and/or left to dry: <input type="checkbox"/> move the mixture onto a sunny/warm window sill <input type="checkbox"/> put it on a radiator <input type="checkbox"/> leave the salt to dry <input type="checkbox"/> heat it <input type="checkbox"/> put it on a shelf and wait.	Do not give credit for a response that includes incorrect science implying the salt will evaporate: <input type="checkbox"/> evaporate the mixture/solution.
9c	1m 3/3d			Do not give credit for an insufficient response: <input type="checkbox"/> leave it (out) <input type="checkbox"/> the water disappears.
